

Short Term Scientific Missions

What is a Short-Term Scientific Mission (STSM)?

- * The aim of a STSM is to **contribute to the scientific objectives of a COST Action**. These Missions (Inter-laboratory Exchange Visits) aim at strengthening the existing COST Actions by allowing scientists to go to an institution or laboratory in another COST country to foster collaboration, to learn a new technique or to take measurements using instruments and/or methods not available in their own institution/laboratory. They are particularly intended for young scientists
- * **Period: min. 5 working days and max. 3 months** For ESRs up to 6 months
- * **max. contribution for a mission of 3 months is 2500 Euros or up to 6 months and 3500 Euros for ESRs.** The financial support is a fixed contribution to the costs of a STSM and may not necessarily cover all the costs.

Who can apply?

- * Undergraduate students, PhD-students, early stage researchers, Researchers with their lab in one of the current member states of this COST Action. This institution shall be actively participating in the COST Action.
- * Researchers with a proposal related to the topic of this COST Action

“ *If you want to learn more about STSMs and read comments of past grantees...* ”
